Well it's a start, whether I keep it up or not is another matter.

It's strange how you always get far more private messages, than on-line comments when you do a blog / diary.

Here's to a new begining. 😊

Made my first video! Very short and like Gary says, it looks like my pb has stuck it's self in an electrical socket.

It looked fine at high-res!! and when I up-loaded it, it cut off all my credits, it wouldn't be quite so bad, but that took me ages to figure out how to do it!

We were walking along thinking we were never going to see one, when Gary says 'Oh for a pb' it was really funny, because at that point one flew past us!

We eventually saw

**5 Pearl-bordered Fritillary**

**3 Grizzled Skipper**

**1 Red Admiral**

**2 Comma**

**2 Green-veined White**

**3 Brimstone**

**2 Large White**

**1 Peacock**

**1 Speckled Wood**

also saw a Speckled Yellow Moth and several Green Tiger beetles.

Pics from the day.

One rubbish Grizzled, but it's always strange to see these in Bentley Wood.
